DK7

The DK7 has a unique hold-down device that pulls the cap downward, creating a smooth surface to mark and holding it in place. There are two option lower platens you can purchase separately for Euro 3.5” x 6.5” caps and youth 3” x 5” caps.

A few features include a fully digital temperature control ranging from 32F – 600F, automatic digital timer and dual pre-press timer, user selectable end-of-cycle alarms, cycle counter, along with a 3-year warranty on control and 1-year warranty on the entire press.
