Badges

Thermopatch’s plastic badges can be printed with any company logo or image. Then, in the transparent window, a name tag can be placed. A choice can be made between a single line, double line or multi line label. The badges are available in various sizes. Thanks to the text windows, our badges are ideally suited for reuse.

With software, name tags are immediately printed on the badge insertion cards. This software is easy to install on a PC. The badges come standard with a combi clip; a clip with a pin.

Other types of clips are also available.

Type	Size	Insert space
Single line badge	70 X 44 mm	12 mm
Double line badge	70 x 40 mm	18 mm
Multi line badge	75 x 55 mm	24 mm

Type	Dimensions
