

NL-28

The NL-28 is a hand operated heat seal press with large platens (40x50 cm). This press is especially suitable for applying all sizes of transfers and emblems to t-shirts, polos, jackets etc.

This model has an added advantage: the lower platen is extendable for optimum ease of use.

Sealing time and temperature are easy to set thanks to the graphical display. Three different programs can be stored in memory. The machine opens automatically after pre-heating and after each press cycle.

NL-28	
Power supply (Volt)	240
Power consumption maximum (Watt)	2500
Temperature range (°C)	0 - 220
Timer (Sec-)	0 - 570
Dimensions HxWxD maximum (Millimetres)	570 x 439 x 760
Sealing platen (Millimetres)	400 x 500
Noise level (Decibel)	< 70
Air pressure range (Bar)	N/A
Weight (Kilogram)	59
Shipping weight (Kilogram)	76
Shipping dimensions HxWxD (Millimetres)	940 x 530 x 760
Certification	CE
