

# BADGES

A flexible system

Highlights • Pre-printing possible • Re-usable • User-friendly

### Badges: a product with many applications

The unique Selfit® system makes quality badging quick and easy. We supply the badges pre-printed with your logo or any image of your choice, you supply the names and the Selfit® software does the rest, all at the touch of a button. Do not worry about buying new badges for your next event or when you have staff changes. Thanks to the design and construction Selfit® is completely re-usable saving you time and looking like new, time-after-time.

With the Selfit® software you print the names on the badge inserts. All the badges are supplied with a unique thumb-cut on the reverse making it easy to remove and replace inserts.

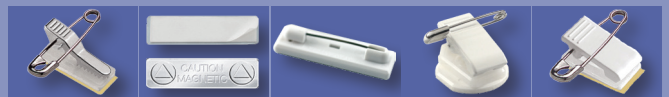

**Single line badges:**  
Size 70 x 44 mm
