Fiberolls

For delicate textile items that cannot be marked directly with a Thermoseal tape, Fiberolls can be used:

Fiberolls are made of dry cleaning and wet wash resistant paper. They are available in standard widths 1/2, 1 Inch x 45 yards in colors and 100mm wide x 50 meters in white with optional color side striping

Color range

01 White	07 Yellow
02 Tan (Brown)	08 Green
03 Blue	09 Red
05 Gray	11 Orange
06 Lavender	13 Pink

The 100 mm wide Fiberolls are used for thermal transfer printing in combination with a HiQ-EOS2 with cutter (in 300 dpi). This system prints buttonhole tags on demand and on the spot. So, no more pre-printed forms are needed.
Fiberolls 100mm x 50 meters are available in white only and for color coding we offer white material with color printed side striping.

The ½ and 1 inch wide Fiberolls are used with a Tag-O-Matic machine or for handwritten comments with a marker.
