

DK8

The DK8 6" x 8" press is ideal for smaller transfers and applique sealing. The bottom platen is easily removed and can be replaced with a 3" x 5" or 3" x 3" platen that comes standard with the heat-seal.

A few features include a fully digital temperature control ranging from 32F - 600F, automatic digital timer and dual pre-press timer, user selectable end-of-cycle alarms, cycle counter, along with a 3-year warranty on control and 1-year warranty on the entire press.
