

TLW
Thermopatch Label Writer
Dot Matrix

Highlights

- Cloth label
- 9 Colors Available
- User Friendly
- Easy Maintenance
- 1 Year Warranty

Quality First

When Thermopatch introduced the TLW system over 20 years ago it was innovative and considered a high quality product. Now 20 years later the dot matrix label is still widely used and is a proven technology. Thermopatch strives consistently to offer the best, yet most economical computer components available.

Our system will always offer clean, easily changeable ink cassettes and print on several different sizes of heat-seal label tape, perforated for computer use.

Oki 395

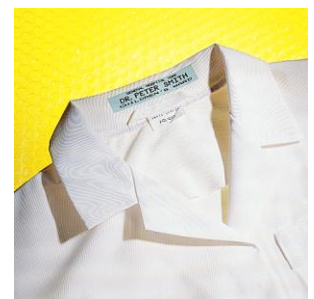

Epson LQ-590

Two dot matrix printers that Thermopatch sells are the Epson LQ-590 and the Okidata 395. Both of these are very durable dot matrix printers.

Versatility

Thermopatch has the capability of producing many label sizes beyond those stocked and can customize their software to accommodate your unique label requirements.

Labels are available in 9 standard colors.

Programs

Product Ordering Codes

Programs feature ability to print bold, wash fast copy on several different label sizes with consecutive numbering, copy centering, on-sc change ink ribbons, Interleaved 2 bar code printing and fast start-up features.

The combined use of Thermopatch programs, labels and ink produce permanent copy. In most cases readability remains for the life of the garment.

Printers

Epson LQ-590 – 24 pin – A heavy-duty printer, using a large ink cassette. Supplied with a printer base, a label roll holder, cable, wash fast ink cassette and sample roll of label tape.

Okidata 395 – 24 pin – A printer for use in high volume conditions. Supplied with push and pull tractor feed, cable, tape holder and spindle, wash fast ink cassette.
