Thermopatch
an Avery Dennison Company

IniTex
Thermal label

High Quality Labels

HIGHLIGHTS

- **High Speed Printing**
- **Correct amount of ink used every time**
- **Many Sizes available**
- **High Quality**
- **Heat-seals flat on the material**

SEALS FLUSH

Thermopatch's IniTex is a thermal printed film that when heat-sealed to a material lays flush in the garment, making IniTex ideal for care/instruction labels. When thermal printing, Garment MFG's will like the versatility IniTex offers, such as, choosing various hieghts of the label to accomidate more information and the ability to heat-seal to a wide variety of fabrics.

A Winning Combination

When used with BarTender software and a SQUIX4M printer with cutter, printing labels is easy! Bartender offers a Windows enviroment with drag and drop features, the design capabilities are up to your imagination.

Don't want to print the labels yourself? Ask about our Pre-Printing service.

IniTex Sizes

IniTex comes standard in widths of 1", 2", 3", 3-1/4" or 4".

Custom widths are available with a minimum production run order; minimum run depends on the width needed.

Packaged

Each package contains two 50 yard rolls and one 110 yard ink ribbon.
