Thermoset III

Loaded with Safety

HS171 Heat Seal

HIGHLIGHTS

- **Loaded with Safety**
- **Dual Digial Controllers**
- **Open Line of Sight for Sealing**
- **Ease of Maintenance**
- **Two-Hand Operation**
- **Durability**

Increase production with a table designed to hold this heat seal.

SAFETY/PRODUCTION

The Thermoset III has the most standard safety features of any single head heat seal on the market!

This ruggedly built heat seal is equipped with a touch safety guard, pinch guard, emergency stop switch, lower platen safety guard, two-hand operation, dual digital heat controllers and time/temperature/pressure lock-outs.

Besides being loaded with these safety features, you can also adjust the decent speed of the upper platen to help increase production. The heavy duty air cyclinder is self lubricating, the adjustable digital timer fits a variety of time requirments and has a full cycle piece counter.

Maintenance is easy with the removable hood access design.

The benefits for the dual digital heat controllers are: Interchangeable units, Consistent heat control, 450°F max set point, Self diagnostic, Temperature lock out and continuous display of preset & actual temperatures for each platen.

Options Features

Heavy duty pedestal with level adjustment
Optional Platen sizes available:
- 2-1/2" x 4"
- 3" x 4"
- 4" x 6"

Garment tray
Safety Foot Pedal with time start delay
Pro-Con by MiriCal

What is Pro-Con?

- Exposes every label to the optimum heat sealing condition
- Prevents over and under heat sealing which causes label loss
- Minimizes operator error
- Automatically adjusts dwell time for various fabrics
- Increases heat sealing efficiency and effectiveness resulting in increased production
