

## HS-4-C

HS-4-C是一台手动的台式热压机，用于标识标签、徽章、和纺织品热转印标签。HS-4-C拥有强大的加热元件，顶盘在几秒内即可加热，即使在睡眠的状态下也可以使用。数字控制按钮，让您设置时间，温度和节能模式。完成一个热压循环后，HS-4-C将自动打开。这有助于大大加快热密封的工作。

| HS-4C                                        |             |
|----------------------------------------------|-------------|
| Power supply (Volt)                          | 230         |
| Power (Watt)                                 | 600         |
| Operating temperature (°C)                   | 204         |
| Temperature range (°C)                       | 20 - 230    |
| Press time range                             | 1 - 60 sec. |
| Sealing platen (Millimeters)                 | 125 x 95    |
| Machine height, open                         | 550 mm      |
| Machine height, closed                       | 240 mm      |
| Machine width                                | 550 mm      |
| Machine depth, open                          | 350 mm      |
| Machine depth, closed                        | 350 mm      |
| Net weight (Kilogram)                        | 21          |
| Gross weight, including packaging (Kilogram) | 23          |
| Fuses 2x                                     | 3.15 Ampere |
| Weighted sound pressure (A)                  | <70 dB      |
| Certification                                | CE          |
